DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 3-11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In re cl. 3, in the last 4 lines, "means" is unclear to which means it refers to.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claim 3 is rejected under 35 U.S.C. 102(b) as being anticipated by Dinkins (2135802).

Dinkins discloses:

cl. 3:

lift comprising:

a lift arm (1);

wheel mounting means comprising a tire cradle having left & right ends (10);

a lever arm (near the hinge up to the area where the fulcrum starts)

variable fulcrum means (the area where the bend starts and ends approx. where ref 1 is shown, beyond that is considered the lift arm);

floor contacting surface (rollers 7);

means for pivoting (at hinge 9) connected to the left & right ends of the tire cradle (10).

Art Unit: 3671

Allowable Subject Matter

5. Claims 4-11 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Response to Arguments

6. Applicant's arguments with respect to claims 3-11 have been considered but are moot in view of the new ground(s) of rejection.

Examiner attempted to contact Applicant in re the "pivoting means." It is unclear from the specification which structural element is considered as such. In the hopes that in the Applicant's response to this Office Action, a satisfactory answer will be provided with figure and reference numeral(s), therefore, the Examiner does not issue drawing or 112 1st paragraph objection / rejection with this Office Action.

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Bartoe, Hellyer, Giacomo, Davenport, Reznicek, Kitsuda, Jackson, Coleman, Noone et al.
